The income the federal government has derived from this Territory during the last fourteen years is as follows Gustoms' receipts, 1901-15, \$20,630, 192.87, and internal revenue, during the same period, \$2,151,774.50, or a to tal of \$22,781,897.37. In contrast with this, Mr. Forbes shows that from July 1, 1906, to June 36, 1915, the income of the Territory was as follows: Territorial revenue, \$48,120,380,90, and in comes from all counties, \$2,861,369.58 a total of \$50.981.750.48. In addition to this, the Territory has received \$8, bonds, making the grand total of re ceipts from all sources; \$59,092,237.18. Assistance for Harbor Work

The financial assistance the Terri tory will ask of Congress and the na tional treasury will include improve ments for Honolulu and Kalihi harbors on this island, the Harbor of Nawili wili, Kauai, and Kahului Harbor, Maui

When the improvements to Honolulu harbor were first projected in 1904, say Mr. Forbes, the federal engineer or the ground fixed these improvements at t cost of \$1,628,894.60 and since that pended, leaving unexpended, to com plete the improvements first projected \$435,330,48.

Kalihi Channel Important

The proposed Kalihi Channel is one of the most important projects pending for Honolulu harbor improvements, claims Mr. Forbes. To show the in crease of shipping in Honolulu the sup erintendent quotes figures, which will go a long way to prove correct his contention.

Mr. Forbes shows that during the fis cal year ended in 1913, arrivals in Honolulu were 534 oversea vessels of steam and sail, aggregating 3,348,012 tons, which was an increase of 640,178 tons over that of 1912. During 1914 there arrived here 607 vessels, of 3,713,583 tons, an increase of 365,571 tons.

By the new arrangement the sugar producers will ship to the Pennsylvania Sugar Refining Company of Philadelphin and the National Sugar Refining Company of New Jersey 150,000 tons of sugar each. Part of the national guard rifle team which went to Jacksonville, Florida, for the big shoot, returned by the steamer. Matsonia yesterday. Others did not and thereby hangs a tale.

The ones who stayed behind thought hat they would stop in San Francisco for a few days, figuring that their pay rom the federal government would be forthcoming and that they would thus have a chance to see the exposition.

The ghost failed to walk, however, and as a result the sharpshooters found themselves without funds and were for ed to cable to Honolulu for money. Money was cabled as soon as possi-ble but did not reach the stranded ones stay therefore will be extended a few dent. days longer.

larger as the vessels of the world make more frequent use of the Panama Canal and as a result of the termination of the war in Europe, whenever that much to be desired event comes about. Much Money for Wharves

Besides several million dollars already spent in wharves and landings n Honolulu and elsewhere in the Ter ritory, Mr. Forbes points out that from the meager revenues of the Territory much money is being spent and will be spent within a short time in build ing more wharves and landings. As case in point he draws attention to the contract signed with a local firm on October 9, last, for the construction of Piers 8, 9 and 10 in Honolulu, at a cost of \$295,000.

Much of the memorial is taken up with detailing and describing the needs of the barbors of Nawiliwili and Kahului.

Belt Road Military Necessity

As to the belt road on Oahu, of much military value and necessity, it is point ed out that forty miles will connect the sections already completed. Mr Forbes says that he fully knows that it is unusual to ask congressional as sistance for road building anywhere, but that the situation in Oahu is en tirely different to that existing on the mainland.

The roads of the island, particular ly those to Schofield Barracks, Fort Kamehameha, Fort De Russy and Fort Ruger, are used extensively and heavily by the military forces stationed on this island. Heavy guns, trucks and other army vehicles make the strain on the sland roads terrific and the wear and tear in consequence of this is great. The Territory is not financially in a position to attend alone and unnided by the federal government to the expease outsiled in this particular, is the of the Admiralty Baifour and Minister the increase of shipping at this and argument in favor of federal assist of Munitions Lloyd George. other island ports will be relatively ance in this respect.

Accident Occurs While Policeman Is Cleaning His Revolver

Policeman William F. Meyers accilentally shot and seriously wounded his two year old son Ernest, while cleaning his revolver yesterday mornneck and came out at the back, below the base of the skull. The child was

rushed to the Queen's Hospital. Meyers was cleaning his revolver when the child crept in front of him. The safety catch was off, and when the child was within a few feet of the muzzle the revolver expladed.

Last night the physician at the Queen's Hospital held out little hope for the child's recovery.

WOULD-BE SUICIDE'S PRAYER SAVED HIM FROM DEATH

But for his maudlin prayer, which attracted the attention of Turnkey l'eter Kani, Emil Carlson an enlisted man, would probably not be in the land of the living today. Shortly after bedisgrace incidental to his being "run ' was more than he could or would had been married seven months. The bear. He also decided to commit suicide. He took his belt and strung it, to a sipe in his cell and then, getting on his knees, prayed loud and fervent TO CURE A COLD IN ONE DAY by, even if in a mandlin manner. Turn key Kasi heard the man's earnest pray neck into a noose he had prepared. Kani reported the occurrence to the provest guard, who descended to the depths and pow wowed with the wouldbe suicide. Carlson is living yet.
